Vacuum pump V-i210H

The vacuum pump is designed to work with refrigerants like HFC and HCFC (eg R410A, R407C). Dual stage vacuum pump in small size is used in refrigeration and air conditioning.

The main features:

- dual-stage
- possible power supply voltage of 230V or torque cordless screwdriver
- compact construction and low weight
- the vacuum solenoid valve and preventing back flow of oil into the system
