Flaring tool drill-powered VFT-808E-MI

The VALUE Manual Flaring Tool enables the creation of precise and durable flares. An innovative system allows flares to be made with the help of a drill.

Main features:

- creation of 45° flares, available in metric or imperial scales
- durable, hardened component construction
- wide range of applications
- easy to use
- equipped with a movable limiter to ensure flaring to the correct size
- socket for flaring tool attachment
- effortless flaring, even manually without a drill
